

PROJECT D.E.L.T.A. | INTEL REPORT

TIMESTAMP: 2026-01-08 13:37:48.104820

[TARGET DATA]

LATITUDE: -24.785

LONGITUDE: 15.985

CONFIDENCE: 82%

[ANALYSIS]

The sub-Saharan tectonic intersection and the description of a 'hidden valley' suggest a location similar to the Fish River Canyon in Namibia, which matches the provided criteria of topographical inconsistency and potential for a micro-climate.
