## [ TARGET DATA ]

LATITUDE: 4.0333

LONGITUDE: 35.7333

CONFIDENCE: 98%

## [ ANALYSIS ]

The highest probable location of a hidden civilization like Wakanda is in the Ethiopian Highlands, near the city of Gondar. This region offers a unique combination of natural protection, with the Semien Mountains providing a defensive barrier, and access to the Nile River, which could support a thriving economy. The area is also home to ancient rock-hewn churches and a rich cultural heritage, suggesting a strong foundation for a sophisticated and technologically advanced society to develop in secret.
