

PROJECT D.E.L.T.A. | INTEL REPORT

TIMESTAMP: 2026-04-23 12:16:59.183012

[TARGET DATA]

LATITUDE: 1.023

LONGITUDE: 35.843

CONFIDENCE: 87%

[ANALYSIS]

The location matches the criteria, being within 300 km of IU.KMBO, near the Cherang'any Hills with possible Vibranium-like geological signatures, bordering Kenya and Uganda, showing signs of subtle infrastructure anomalies and avoided by historical survey expeditions.
