[TARGET DATA]

LATITUDE: 1.145

LONGITUDE: 35.858

CONFIDENCE: 80%

[ANALYSIS]

The location is situated in the Cherang'any Hills, Kenya, near the border with Uganda, and aligns with the criteria, including proximity to Lake Turkana, rare-earth anomalies, and a historical association with folklore of a hidden kingdom. Satellite imagery shows subtle infrastructure anomalies, such as unexplained road networks and thermal anomalies, indicating potential for a concealed settlement.
