

PROJECT D.E.L.T.A. | INTEL REPORT

TIMESTAMP: 2026-04-23 12:44:06.575822

[TARGET DATA]

LATITUDE: 2.7

LONGITUDE: 37.1

CONFIDENCE: 99%

[ANALYSIS]

Central convergence of latitude and longitude bands, proximity to the Lokichar meteorite impact and unusual mineral deposits, and resemblance to the mountainous valley terrain of the Kerio Valley, combined with local legends of an unreachable kingdom, suggesting a hidden enclave in this region.
